UQU Pizza Caffè

Shift Supervisor

The time spent in this workplace has taught me the value of hard work and determination, whilst placing me in a sociable environment as part of a close team. I have learnt how to work under pressure while the duties of being a shift supervisor have been invaluable in teaching me leadership qualities.

Liveworm Studio

Graphic Designer

It was at Liveworm that I developed the skills necessary to manage time and overcome procrastination in a professional environment whilst also honing my design skills and improving on my ability to visually communicate.

Publicis Mojo

Advertising Intern

An immensely rewarding period that taught me the ins and outs of a professional advertising firm and providing me with solid feedback from professionals on the work that I completed.

We spent our time responding to awards school briefs professionally and with a realistic deadline, and having that work assessed by the Creative Directors of Publicis Mojo.

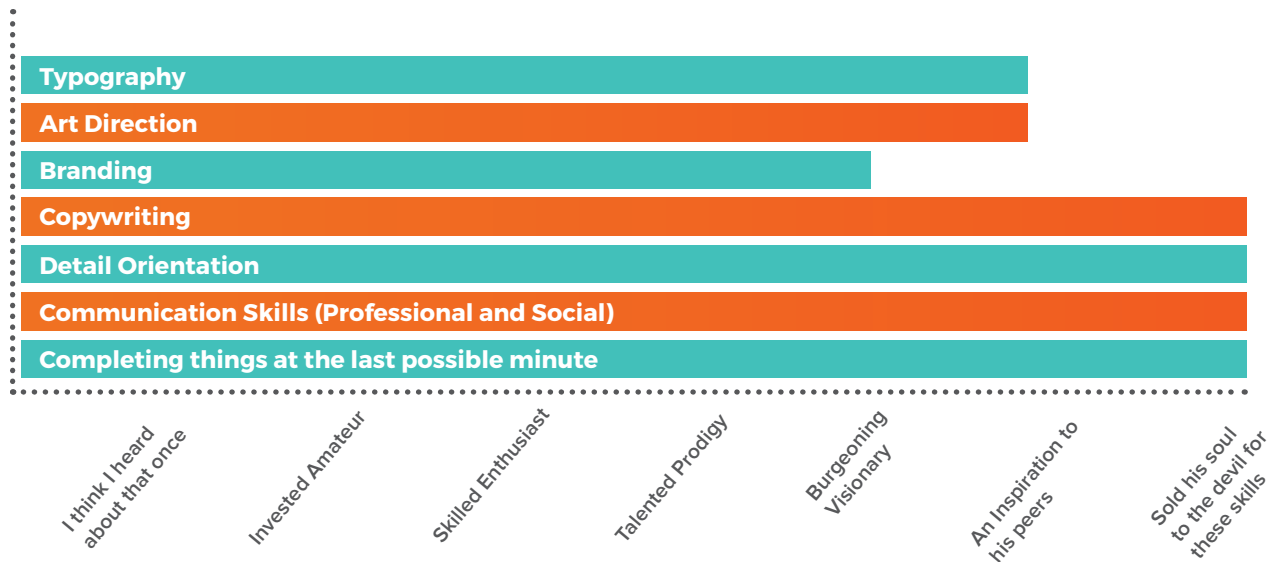

UQU Marketing Department

Design & Marketing Intern

As of September 2015, I have assisted the UQU Marketing Department in a part time role as an assistant Graphic Designer, responsible for tasks ranging from the artwork for simple outlet collateral to emulating an existing design on multiple multi-page information booklets. My time in this role has taught me the basics of the design process in large business, how to work as part of a creative team and how to work within the strict guidelines of an existing brand style guide.
